We protect your right to homeschool and defend your family. A lawyer is on-call 24/7.

We preserve homeschool freedom by promoting homeschooling and working at the federal level and with state homeschooling groups to get better laws and stop bad laws.

You are part of the cause. Not everyone lives in a state where it's easy to homeschool. It's important to stand together to keep homeschooling free, for this and future generations.

We have coordinators who can answer member questions and help you find resources for **the early years, homeschooling through high school** and meeting the special needs of **struggling learners**.
